SUMMARY

Senior Full Stack Software Engineer with 4 years' experience in web development, worked on various projects leveraging mainly **.NET**, **React**, and **SQL Server**. Developed custom solutions, lead the architecture design, improved team efficiency by developing new processes, and mentored junior developers. Highly motivated to take on new challenges and particularly interested in opportunities that involve **relocation**.

SKILLS

React, TypeScript, JavaScript, HTML, CSS, C#, **.NET**, Entity Framework, SQL Server, PostgreSQL, Azure DevOps, Git, REST, Kafka, Docker, Kubernetes.

WORK EXPERIENCE

Axians

Senior Full Stack Developer (.NET | React)

Jun 2025 – Present
Lisboa, Portugal (Remote)

- Tech lead, leading the development team for a large-scale application for the Justice Ministry of Portugal, coordinating closely with the project manager to define deadlines and align priorities.
- Acting as the **main technical point of contact with the client** to gather requirements and discuss solution design.
- Developing **microservices** based architecture with a complex CI/CD pipeline using **Docker** and **Kubernetes**, as well as automation of tests.
- Integrating the system with **multiple external platforms**, including police and court systems.
- Building core features using **.NET**, **Entity Framework Core**, **PostgreSQL**, and **React**.

Noesis

Full Stack Developer (.NET | React)

Mar 2023 – Jun 2025
Matosinhos, Porto, Portugal (Hybrid)

- Developed and maintained 5 solutions with **React** and 7 with **.NET** for various clients.
- Mentored 4 junior developers and helped standardize development practices within the team.
- Spearheaded the development of *Autoridade da Concorrência - STEP*, a **full stack portal**, handling database design using **SQL Server**, **.NET** REST API with **Entity Framework Core**.

Noesis

Junior Full Stack Developer (.NET | React)

Oct 2021 – Feb 2023
Matosinhos, Porto, Portugal (On-Site)

- Contributed to the development of 7 solutions leveraging **React** and **.NET**.
- Worked on a full stack project utilizing **SQL Server**, **Entity Framework 6**, **Sitefinity** and **.NET Framework**.
- Suggested and spearheaded the development of an issue tracking solution. Raising team's gross income by $\approx 37\%$.

GECAD

Frontend Developer Internship

Mar 2021 – Jul 2021
Porto, Porto, Portugal (On-Site)

- Lead daily meetings with the client to discuss updates and new requirements respecting the **agile methodology** guidelines.
- Developed a smart building management portal using **Vue.JS**, which allowed real-time device interaction, device permissions management and authentication based on university credentials.
- Implemented an alert system for monitoring temperature, humidity and light levels using **MQTT** messaging system.

EDUCATION

Instituto Superior de Engenharia do Porto
Bachelor's Degree, Computer Science

Sep 2018 – Ago 2021
Porto, Porto, Portugal
